Form habits of Fire Prevention Now!

It's just as easy to be careful of fire as to be careless—yet fully 75 per cent of our annual fire loss of more than half a billion dollars is due to carelessness.

Matches and smoking, rubbish and litter, defective chimneys and flues, sparks on roofs, faulty electric wiring, stoves, furnaces and hot pipes—all are responsible for huge losses every year, many of which are easily preventable.

Do your part to help cut down this national loss. Rules for fire prevention will be sent upon request.

The Mortality of Advertising

THE waste basket is the grave of millions of dollars worth of advertising every year. Keep your advertising out of the waste basket by using mediums that are not thrown away. The City Directory is on the job 365 days in the year and no level headed man will think of the waste basket and the City Directory at the same time.

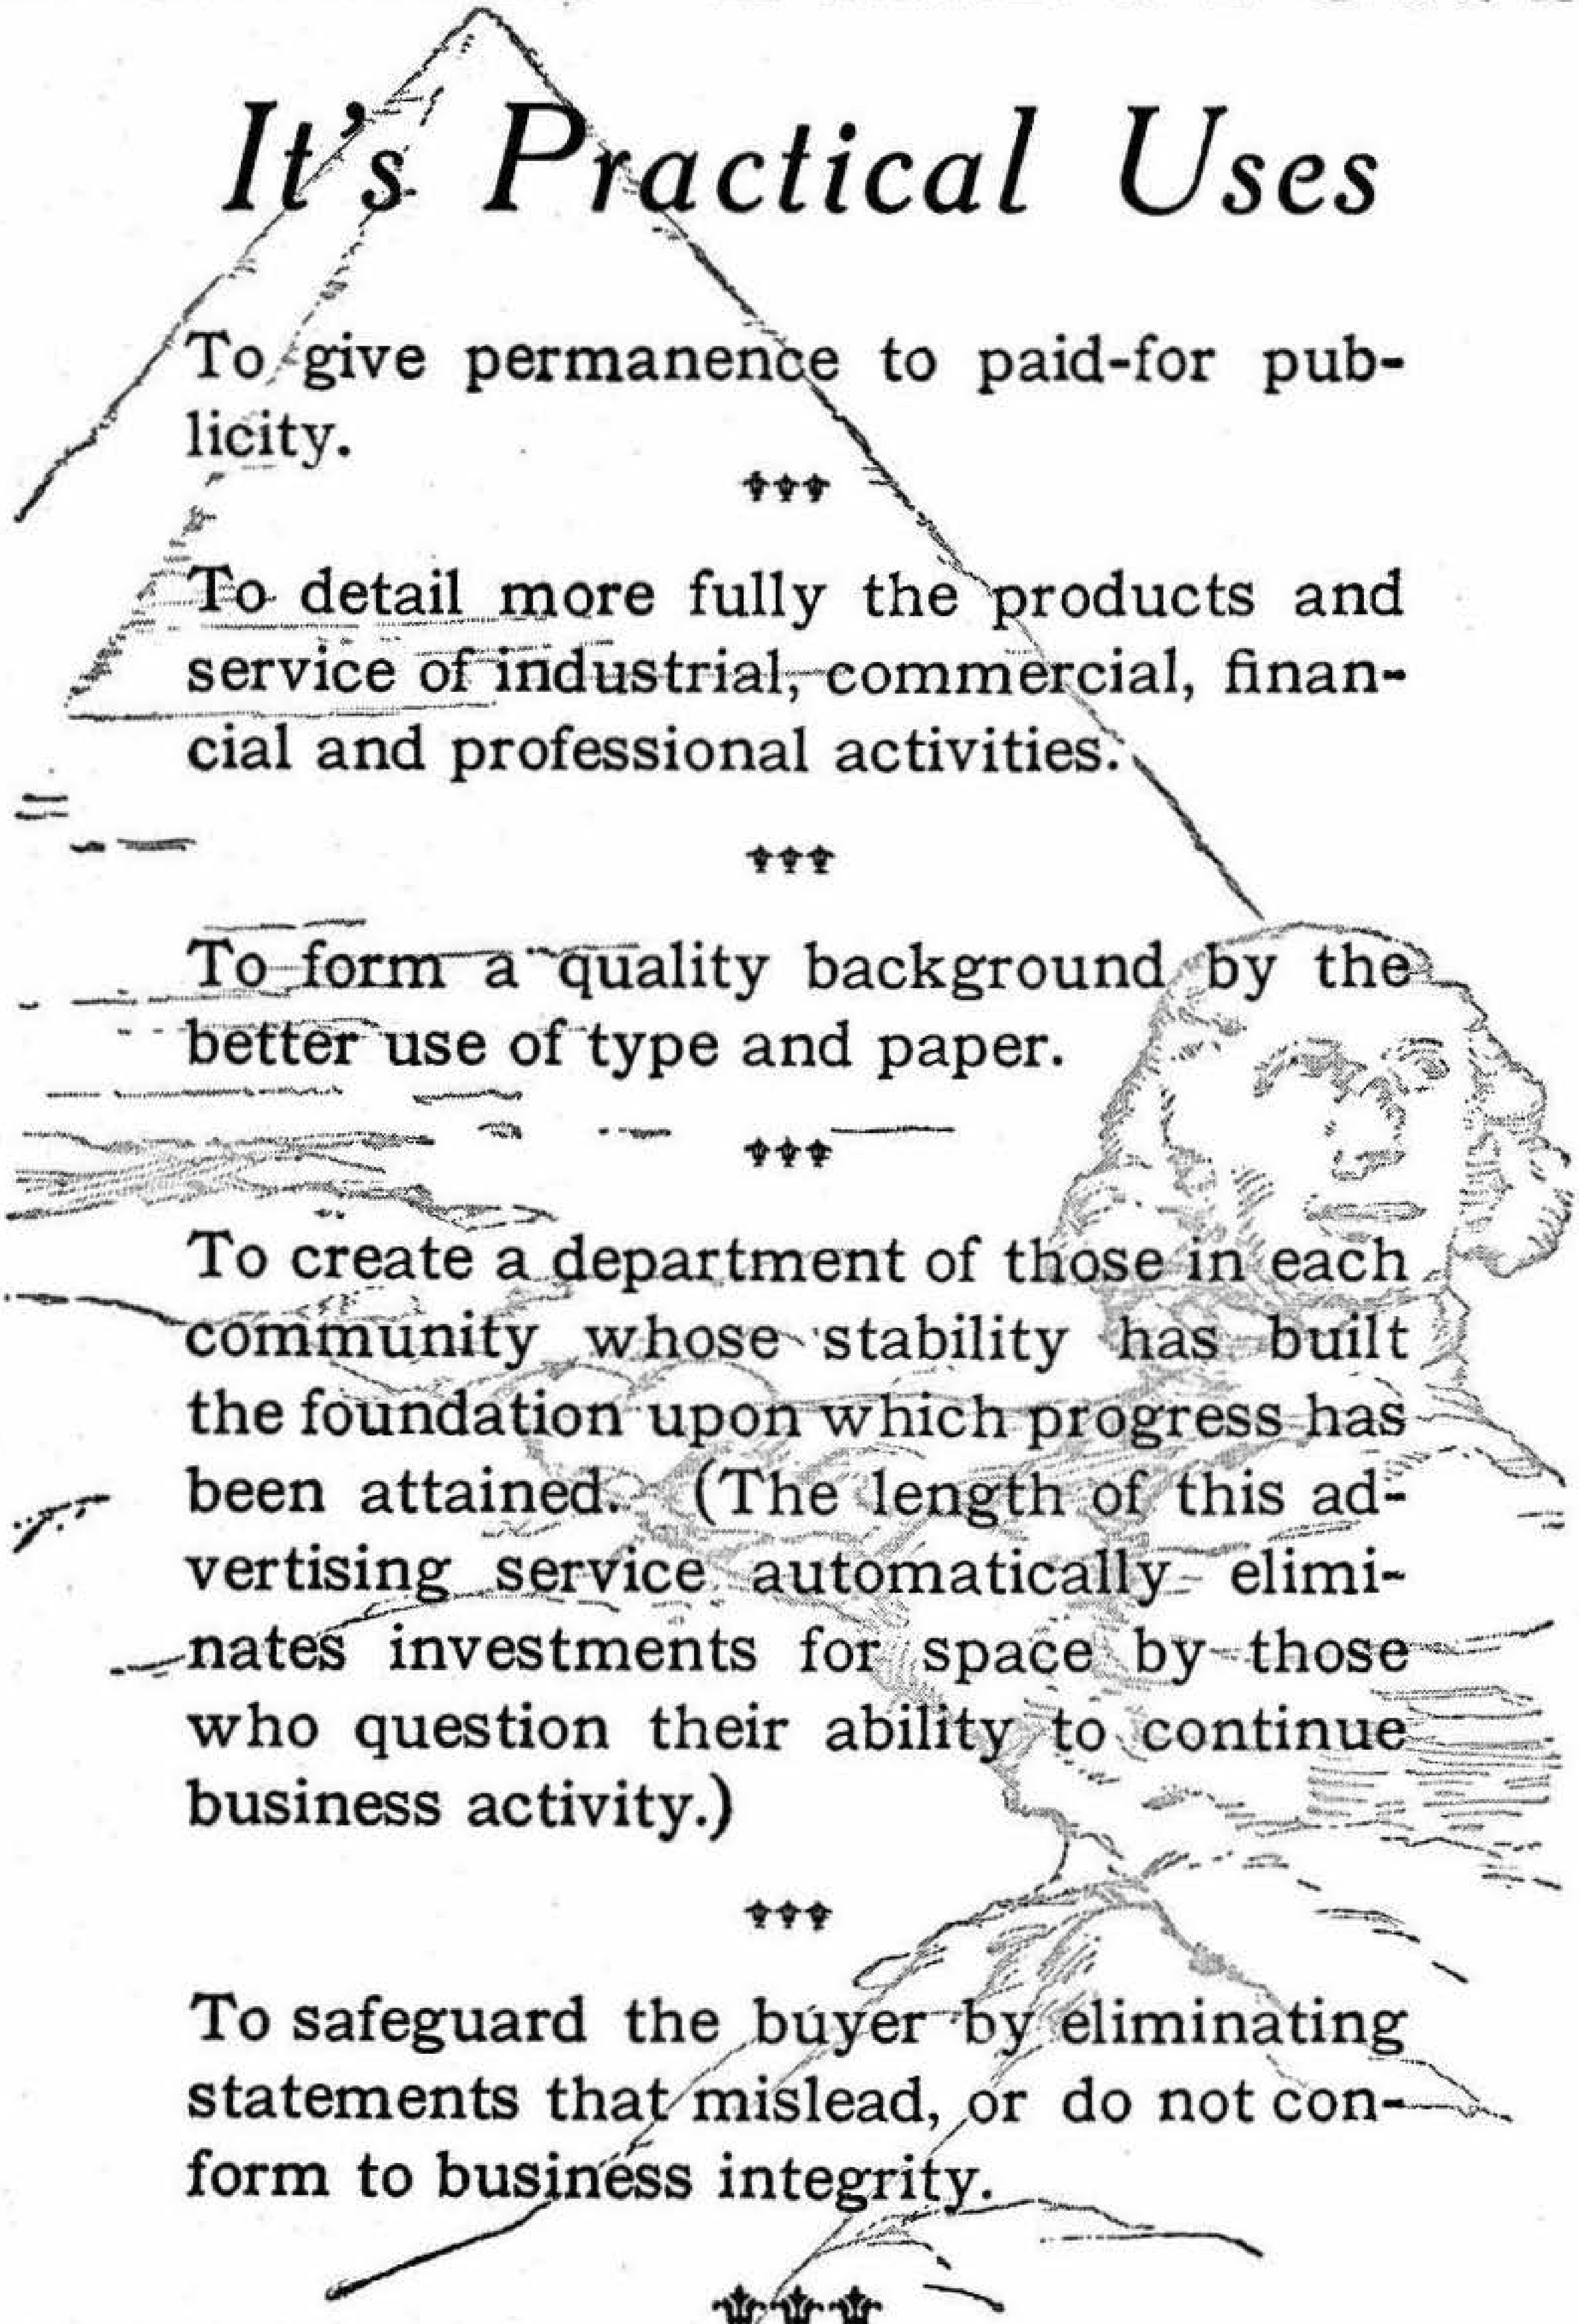
BUYERS' DIRECTORY

It's Practical Uses



To give permanence to paid-for publicity.

* * *

To detail more fully the products and service of industrial, commercial, financial and professional activities.

* * *

To form a quality background by the better use of type and paper.

* * *

To create a department of those in each community whose stability has built the foundation upon which progress has been attained. (The length of this advertising service automatically eliminates investments for space by those who question their ability to continue business activity.)

* * *

To safeguard the buyer by eliminating statements that mislead, or do not conform to business integrity.

Reference Advertising

HE who buys space in the City Directory buys advertising permanency. Every day thousands of business men all over the country search its classified sections to find where nationally advertised goods may be purchased. City Directory ("Reference") Advertising is the completing girder in the bridge between dealer and consumer, and should be part of all national and local campaigns.
